

Server Room Critical Parameters Monitoring system SMS Alert / E Mail Alert

CS-SMS16

Architecture

Server Room Critical parameters / Environment Monitoring System is complete solution including hardware and software bundled together. The Digital controller accepts 16 volt free digital inputs from various subsystems like FAS, Electrical, PAC, Gas Release, Vesda, WLD, URRS, UPS, Sprinkler etc.

The SMS Alert / E MAIL Alert is a microprocessor based intelligent system which accepts the alarms from different sub systems and triggers a SMS to the configured mobile numbers. The SMS text message / e mail messages that needs to be sent to mobiles / mail box can be configured via simple SMS. No PC / LAPTOP is required to configure the system

Certifications : CE (EN IEC 61010-1:2010 + A1:2019, EN ISO 12100:2010)
